Description:

iTop VPN is an all-around VPN for Windows for Free, Fast & Secure Network Solution. It is the best choice for hiding your IP address from hackers and trackers, protecting your online privacy, and accessing worldwide online content freely. With its one-click approach, it connects you to the best and fastest server automatically and encrypts your Internet traffic with military-grade encryption, bringing you a faster and safer online experience.

iTop VPN now provides over 3200 VPN servers in 100 + locations worldwide to satisfy all purposes for downloading, streaming, gaming, torrenting, chatting, etc. What's more, it offers the Favorites feature which enables you to find your desired servers immediately. With these features, you can effortlessly access various videos, music, social media, and games, including Netflix, Disney+, Hulu, BBC iPlayer, Facebook, WhatsApp, Tiktok, Roblox, Call of Duty Mobile, PUBG, and so on.

In this new version, iTop VPN offers a brand-new Connect Assistant which helps you quickly find and connect to the best server for different usage scenarios. It also introduces a new Double VPN feature.

For any questions, inquiries, and suggestions, please contact <https://www.itopvpn.com/support>

With the new feature, you can connect to 2 VPN servers at the same time to guarantee an extra layer of security.

Meanwhile, iTop VPN includes more useful and advanced features in Privacy & Security Protection for a best-in-class security level.

- **Dark Web Monitor** - Monitor your personal data security and notify you if it is compromised. Also you can auto-monitor the leakage of your sensitive data.
- **Password Generator** - Create strong and secure passwords with just 1-click.
- **Proxy Service** - Help all supported devices (Windows PCs, Android devices, iOS devices, etc.) on the same LAN connect to VPN via the HTTP proxy settings.
- **Advanced VPN** - Customize your VPN with Ads Block, Split Tunneling, etc.
- **IP Configure** - Configure your IP address as the Best Server IP, Dynamic IP, or Static IP.
- **Security Reinforce** - Scan and fix system weaknesses to prevent your PC from being hacked.
- **Browser Privacy** - Scan and clean privacy issues to protect your identity from being tracked.

Last but not the least, iTop VPN supports to connect and disconnect VPN servers quickly with a iTop VPN Mini desktop icon. It also provides quick access to your favorite servers and monitor your network connection. Now iTop VPN Mini fits on 4K monitors better.

iTop VPN is the best VPN tool for not only accessing worldwide online content freely but also securing your online privacy with blazing speed. Download it and enjoy a free and secure VPN service now!

★★★★★Exclusive VPN Servers in iTop VPN ★★★★★

- ✧ **Exclusive Dedicated IP:** Enable users to get the protection of a VPN connection along with a fixed and unique IP address. iTop offers dedicated IP servers from the US, UK, Canada, and Germany. With a dedicated IP, each user connects to the same exclusive IP address without security and speed worries.
- ✧ **Double VPN:** This new feature enables users to connect 2 VPN servers at the same time and encrypt the traffic twice for an extra layer of security. Then your ISP cannot track your destination server on the web.
- ✧ **Massive VPN Servers:** iTop VPN offers over 3200 high quality servers in 100 + locations worldwide. With unlimited bandwidth, unlimited traffic, and a no-log policy, users can experience optimized streaming, gaming, torrenting, chatting, etc.
- ✧ **HTTP Proxy Service:** Help users connect all the devices on the same LAN, including Windows/Mac/iOS/Android/Xbox/Linux/PS/Nintendo Switch. iTop VPN offers an all-around VPN solution for home devices and makes users enjoy a quick and convenient online experience on the go.

★★★★★New Features in iTop VPN ★★★★★

- ✧ **Connect Assistant:** This new tool helps users quickly connect to the desired server for Streaming, Gaming, Downloading, Social, and Online Surfing.
- ✧ **Unblock ChatGPT:** iTop VPN helps connect to the server that is accessible for ChatGPT and enjoy the trending AI technology.
- ✧ **Dark Web Monitor** - iTop VPN helps monitor your personal data security and notify you if it is compromised. Also you can auto-monitor the leakage of your sensitive data.
- ✧ **Password Generator** - iTop VPN creates strong and secure passwords to protect your personal information and wealth with just 1-click.
- ✧ **Shrink MTU Size:** This option in Advanced VPN increases the connection rate when your internet connection is not good.

★★★★★ What makes iTop VPN so attractive? ★★★★★
