Description:

iTop VPN is a fast and free VPN to secure privacy, and access unlimited video games, music, social media, and streaming from anywhere in the world. iTop VPN encrypts all the Internet traffic with military-grade encryption and hides the real IP from hackers and trackers. iTop VPN provides over 1800 global network servers for users to choose from, offers TCP, UDP, HTTPS connection protocols, and auto-enables Kill Switch. In addition, iTop VPN defends against DNS attacks and provides an IP checker tool for free.

iTop VPN can work on all Windows laptops and desktop PC with its great features for any occasion below:

Unblock Popular Games: iTop VPN has dedicated VPN servers to unblock PUBG, Roblox, and Call of Duty Warzone and fix high ping problems

Unblock Streaming Services: iTop VPN can access Netflix, BBC iPlayer, Disney Plus, Hulu, HBO Max, Paramount Plus, and Peacock streaming.

Unblock Social Networks: iTop VPN can unblock WhatsApp, Telegram, Skype, Facebook, Twitter, and more.

Quick Access feature: iTop VPN instructs users to quickly find the service they need for different server usage scenarios.

Protect Browser Privacy: iTop VPN scans and cleans privacy issues to protect the private data from being tracked.

Block Ads: iTop VPN blocks unwanted and malicious ads to prevent malware infection.

Security Reinforce:iTop VPN scans and fixes system weaknesses to prevent the PC from being hacked.
